Crash in the market!

01

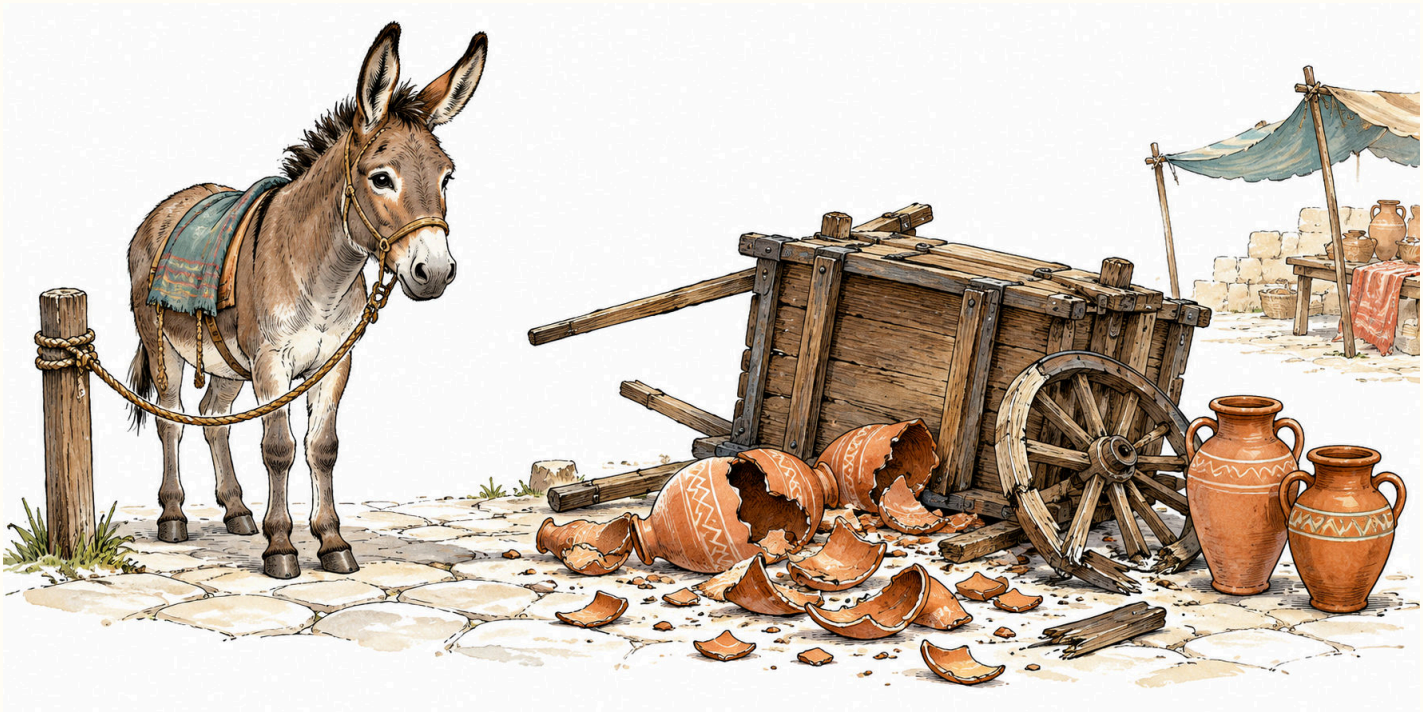

Follow the clues with your pencil. You can choose one task at a time.

The cart has tipped over! Look carefully. What can you find?

1 Examine the scene

Circle the wheel, the rope and one broken jar.

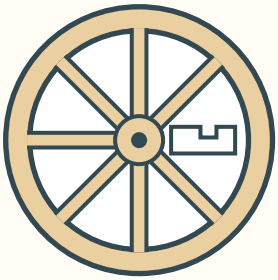

How many whole jars are standing right by the wheel?

Look near the wheel. Do not count the jars on the stall at the back.

2 Which piece fits?

Circle A, B or C. Look for the little notch.

A

B

C

This is a practice wheel. The shape does not tell us what happened first.

Ask the people who were there

01

The picture shows clues. Now let us hear what the people say.

3 Who saw the cart tip over?

LEA

I saw the cart tip over.

MIKA

I came afterwards. The cart was lying on its side.

Circle the name. Underline the words that helped you.

Both can tell us something. They did not see the same moment.

4 Now you are a cart builder!

Draw three jars and something that keeps them steady.

5 Make a clue hunt!

Hide something. Give a friend one hint at a time. Swap roles.

On your own? Draw the thing and three hints on the back.
